

VIPP GLOBAL VIRTUAL WINTER SCHOOL *at Michigan State University*

DIGITAL MEDIA CAMPAIGN

COURSE DESCRIPTION

Digital Media Campaign is an intensive project-based online program which will introduce students to the creative process of developing a digital media campaign from ideation to planning and creative implementation.

This virtual exchange program will offer students an opportunity to enjoy cross-cultural collaborative learning and meaningful international experience without having to leave their countries.

Students will work in a small group to develop a digital media campaign to promote an imaginary K-pop band's tour in the U.S. from pre-arrival to talk show appearance. By collaborating on a hands-on project on a daily basis, from teaser campaigns to a short video production, international students will learn how to develop a creative social media and digital campaign for the U.S. markets. The international project team setting will provide all students a real opportunity for cross-cultural learning.
